$\qquad$
$\qquad$ Period $\qquad$ Constructions Worksheet

Use a compass and straightedge to copy the following segments.
1.
2.

Use a compass and straightedge to copy the following angles.

3.

4.

Use a compass and straightedge to bisect the following segments (find the midpoint).
$\qquad$
5.
6.
—————

Use a compass and straightedge to construct the perpendicular bisector of the following segments.

8. $\qquad$

Use a compass and straightedge to bisect the following angles.

9.

Use a compass and straightedge to construct a segment that is parallel to the given segment and goes through the given point.

11.

12.

Use a compass and straightedge to construct a segment that is perpendicular to the given segment and goes through the given point.

13.

14.
